For Immediate Release

Upper St. Clair, PA, January 4, 2008 ó MAX Environmental Technologies, Inc. is pleased to announce the hiring of John Mammay as Technical Sales Representative. Mr. Mammay's responsibility will be for the sales and service of MAX's environmental services, including treatment and disposal, construction, remediation, and transportation. Additionally, Mr. Mammay will develop and oversee projects for MAX's new Containment and Processing Facility including dust treatment, crushing and drum management.

Mr. Mammay has over 20 years of environmental experience including sales, recycling and project management including previously working for MAX's former Allegheny Liquid Systems division. He has a Bachelor in Arts degree from the Robert Morris University, Pittsburgh, PA. John and his family live in Pittsburgh.

MAX Environmental Technologies, Inc. specializes in the treatment, storage, beneficial use and disposal of hazardous and non-hazardous industrial wastes at facilities in Yukon, PA and Bulger, PA. The Pittsburgh-based company also offers transportation, waste handling services, construction & remediation services, landfill capping & closure services, and laboratory analysis. MAX was established in 1957.
