Pittsburgh, PA . MAX Environmental Technologies, Inc. is pleased to announce the hiring of James R. Schlaegle as Containment and Processing (CAP) Facility Manager. Mr. Schlaegle will be responsible for all operations related to the CAP building including materials crushing, dust handling and treatment.

James brings over 20 years of experience in the environmental and steel industry including plant management, process engineering, contract laboratory research and environmental management. He received a MS in Organizational Leadership from Geneva College and a BS in Mechanical Engineering from Point Park University.

MAX Environmental Technologies, Inc. specializes in the treatment, storage, beneficial use and disposal of hazardous and non-hazardous industrial wastes at facilities in Yukon and Bulger, PA. The Pittsburgh-based company also offers transportation, waste handling services, construction & remediation services, landfill capping & closure services, and laboratory analysis.
