Pittsburgh, PA ó MAX Environmental Technologies is pleased to announce the recent hiring of Tara Delanoy as Approvals and Compliance Coordinator at their Yukon Facility.

Tara holds a Bachelor of Science in Environmental Science with a minor in chemistry from the University of Pittsburgh. Tara will be responsible for the coordination of waste stream approvals, coordinator of OSHA training and safety audits, DEP/EPA report preparation and various other duties.

MAX Environmental Technologies, Inc. specializes in the treatment, storage, beneficial use and disposal of hazardous and non-hazardous industrial wastes at facilities in Yukon, PA and Bulger, PA. The Pittsburgh-based company also offers transportation, waste handling services, construction & remediation services, landfill capping & closure services, and laboratory analysis. MAX was established in 1957.
